A revolutionary sleep experience from Sealy.

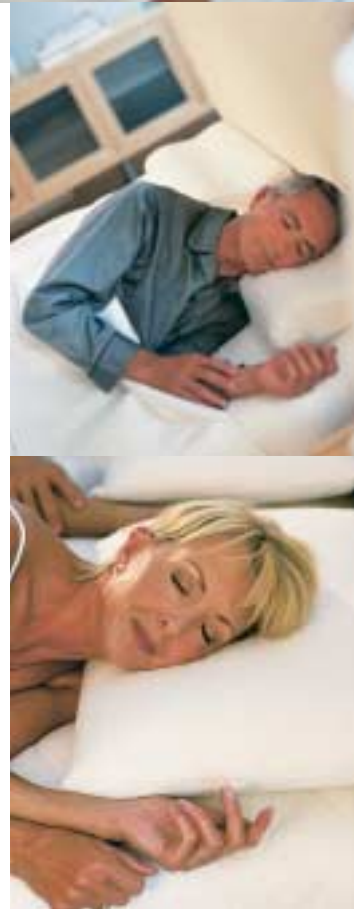

A revolutionary sleep experience from Sealy.

Sealy, the world's biggest bed manufacturer, is constantly looking for ways to bring real improvements in the quality of sleep. That's why, after extensive research, we developed an innovative mattress which makes a good night's sleep even healthier. The name, Mirrorform.

Made from pressure relieving material, Mirrorform has been specifically designed to respond to body temperature and weight, relieving pressure and dispersing it. The mattress moulds to the shape of your body's contours to create a perfect reflection of you - hence the name Mirrorform.

All parts of the body including the small of the back are properly supported, with the spine in a natural position helping to take care of aching joints, muscles and circulation.

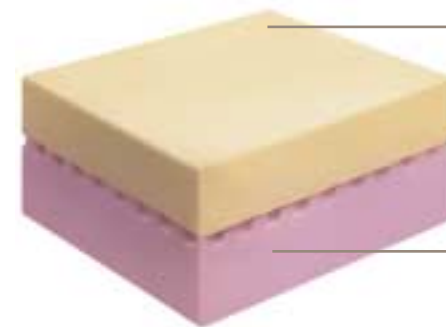

The secret of advanced sleep technology from Sealy.

A Mirrorform mattress is composed of millions of microscopic cells, each containing a number of windows. As they sense the warmth and weight of the sleeper, air moves throughout the mattress to give balanced support, both for areas of greater weight, such as the shoulders, and areas in need of extra support such as the small of the back.

Supported by science.

Ordinary visco 'memory' mattresses can take some time to warm up, feel quite hard when you first lie down and put up resistance when you move in your sleep - a problem for people who prefer a cooler bedroom temperature.

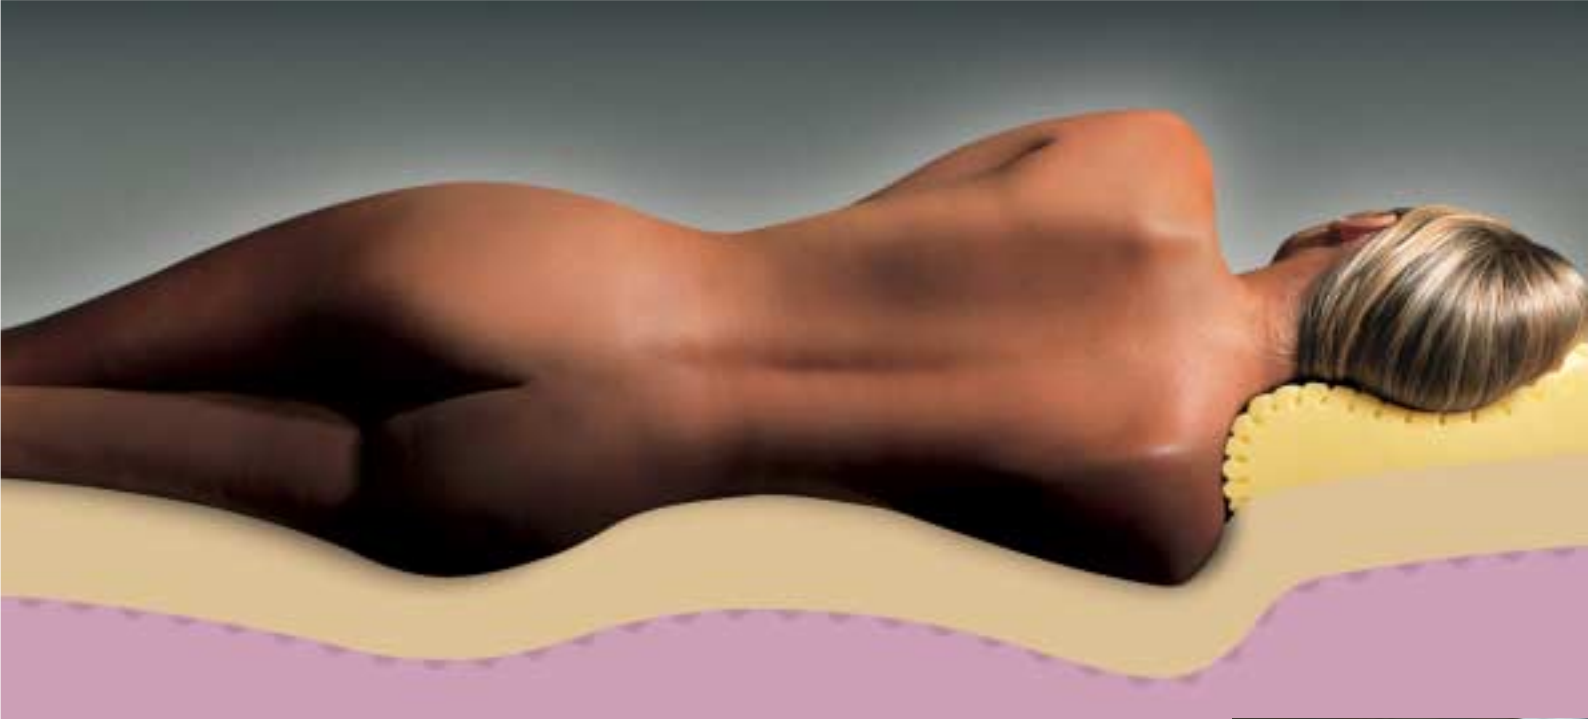

Not with Mirrorform, thanks to two scientifically designed layers that work together to achieve optimum performance, shaping more quickly as the sleeper moves.

1. The Comfort and Support layer - a special layer of Mirrorform which reacts more quickly to heat and pressure from the sleeper, and responds by moulding itself to the body's shape.

2. The Base Layer of high resilience Super Bultex™ foam provides correct underlying support and features strategically placed channels to improve airflow and disperse heat and moisture more effectively.

Mirrorform, for a healthier night's sleep.

With the stress of life comes strain, including back, joint and muscular aches and pains. Back care professionals and back pain sufferers understand the importance of correct support for the spine and body. As you spend one third of your life in bed, correct support from your bed plays an important part in healthy living.

New and improved.

This is the new and improved version of Mirrorform which, with the changes we've made, has improved performance over the life of the product, increased responsiveness and improved airflow and heat and moisture dispersion. Whilst the original Mirrorform was scientifically proven to outperform leading rivals, the new improved models perform even better. They have also been tested to European standards.

A healthy advance.

Mirrorform also complies with all UK domestic furniture and furnishings' fire safety regulations, which isn't always the case with other visco 'memory' mattresses.

This clearly demonstrates that Sealy's innovative Mirrorform mattress marks a healthy advance in the quality of sleep, which you can now prove for yourself every night of the week.

Mirrorform adjustable

For that extra touch of luxury and added comfort, Sealy has developed this electronically adjustable version. A quiet but powerful twin motor system drives the five section adjustable frame to give complete flexibility. The fashionable beech sprung slatted bed base is available in a choice of two fabric options, Suede (in Chocolate or Natural) and Boucle (in Beige only). For added convenience this 'non turn' mattress does not require turning, only rotating from end to end. Mirrorform will retain its shape across the entire sleep surface and is available in two comfort options, regular or firm. Shown here with matching Monaco headboard in Chocolate Suede finish.

Drawer options not available.

Mirrorform

To make sure that Mirrorform meets every body's comfort requirements, there are two mattress comfort feels available - regular or firm. The fashionable sprung slat bed base is available in a choice of two fabric options - Suede (in Chocolate or Natural) and Boucle (in Beige only). For added convenience the Mirrorform mattress does not require turning, only rotating from end to end, and will retain its shape across the entire sleep surface. Shown here with matching Trio headboard in Natural Suede finish.

Also available with drawers.

Headboards

The headboard collection features three stylish designs which are available in the following widths: 75cm, 90cm, 135cm, 150cm and 180cm. Each headboard is available in a choice of two fabric options, Suede (in Chocolate or Natural) or Bouclé (in Beige only).

Neptune headboard in Chocolate Suede finish.

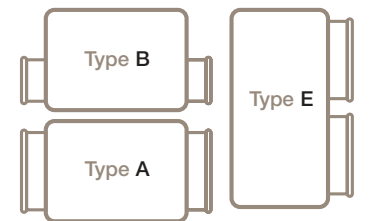

Trio headboard in Beige Bouclé finish.

Monaco headboard in Natural Suede finish.

Multi-drawer options

Multi-drawer options are available on Mirrorform beds (see specification table). Because these models are produced as split bases i.e. two halves, Type A and B can be combined to give a drawer option that suits your needs e.g. Type AA, Type BA. Type E (single) and Type EE (super king-size) options are also available. Multi-drawer options are not available on adjustable models.

Therapeutic pillows

Made from the same unique pressure relieving material as the mattresses, Mirrorform pillows mould to the shape of your head and neck to ensure proper support for your neck and spine. These also feature Sealy's unique air dispersion channels which act as a ventilation system for a more comfortable night's sleep.

Therapeutic neck pillow. Available in medium and large

Sprung slatted bases

The new contemporary bases feature Sealy's unique beech-faced sprung slat system for improved support and a more responsive, softer feel. All Sealy Mirrorform models, with the exception of the 90cm width, are produced with split bases. This is particularly useful for delivery as the bases can be easily manoeuvred into position. For ease of assembly the two halves simply clip into place using Sealy's unique new locking system. This new system is easy to use, hidden from view and requires no tools to assemble.

Special linen

Linen to suit Sealy small double beds and other special sizes is available from most good linen retailers. Should you experience any difficulties, contact Acton and Acton Ltd. Tel: (01706) 642 361 for details of your nearest stockist.
